Own the Blockchain

Don't just invest. Own the Asset.

Our investment strategy allows investors to not only profit through investments into assets, but to also own the assets, such that an increase in value results in cashflow.

Cryptoassets

Investors are profiting from our growing variety of cryptoassets

Our cryptocurrencies asset class encompasses cryptoassets trading and HODLing, as well as protocols and smart contracts, that allow investors to benefit both from the increasing value of cryptoassets and the profits from successful trades.

Hedge Funds

Our funds are diversified to include protocols and blockchain companies.

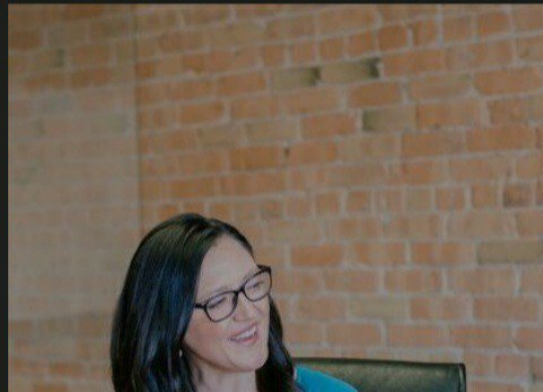

Our funds focus on tokens that incentivize the core actions of a protocol and/or excel in developing novel mechanisms for smart contracts. In addition, we invest in early token sales that interact with an actual business or product in the blockchain ecosystem.

Portfolio

A single investment to include cryptoassets and hedge funds

Our portfolios are careful selections of cryptoassets and hedge funds, and are tailored to match the investor's financial goal, whether it's long-term, mid-term, or short-term. Build a portfolio today and enjoy the best of both asset classes.

We manage your trades and investments

“We have brought down risks to nearly 0%.” for all our active clients.

Our investment strategy is such that we manage the trades and investments on behalf of our investors, so that they do not have to worry about the risks associated with investing in the financial markets.

Simply put, your investments are safer with us.
